Detox 5 times, get 6th for FREE	

Detox Foot Spa is a gentle 30 minutes non-invasive therapy, which re-energises the body and helps support the body to detoxify naturally, helping restore your natural equilibrium and well being.

The Ion Cleanse unit delivers a small amount of low level electrical current into the array, which result in a reaction between the array, the water and the Himalayan salt (added to help conductivity and increase the ionisation effect), to generate positively and negatively charged ions.

When the feet are placed in the water the interaction of the positive and negative ions re-energises, revitalises and supports the body's innate ability to rebalance and achieve a higher state of well being.
